HIV Negative? Want to Stay that Way? Learn about PrEP.

PrEP is a pill for people who do not have HIV who want added protection. When taken every day, PrEP has been shown to be highly effective in protecting against HIV.

Talk with your doctor, healthcare provider or local health department to see if PrEP is right for you. If PrEP is a good option for you, your healthcare provider will give you a prescription. PrEP is covered by most insurance programs. If you do not have insurance, your healthcare provider can direct you to medication assistance programs that may help pay for PrEP.

Pre-Exposure Prophylaxis or PrEP.

The word "prophylaxis" means to prevent or control the spread of an infection or disease.

Learn more about PrEP and find a provider near you at <https://prelocator.org>

Stay Healthy and Protect Others

- Newly diagnosed with HIV? Start Antiretroviral Therapy (ART) as soon as possible to reduce viral loads and stay healthy.
- Condoms are highly effective at preventing both HIV and STDs.
- Sharing needles for drugs can spread HIV. Don't share or reuse needles. As a last resort, clean drug injection equipment with bleach or alcohol.
- Pregnant? Treatments are available to reduce the chance of transmission from mother to infant.

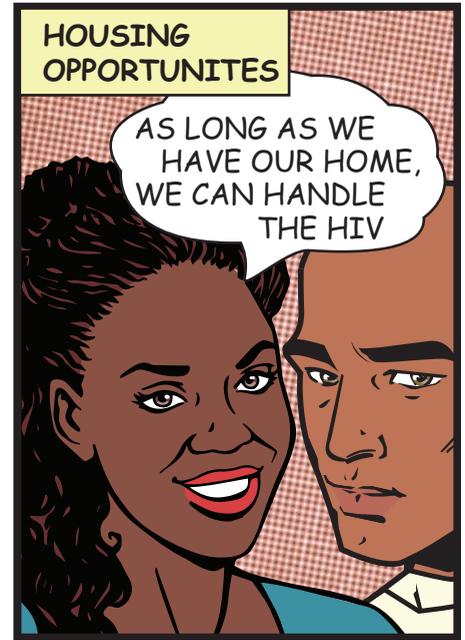

RYAN WHITE

Ryan White, a federally funded program, offers HIV-positive persons assistance with services not covered under other programs.

Services include:

- HIV Medical Care (labs, doctor visits)
- HIV Medications
- Mental Health Services
- Dental Services
- Insurance Medication Co-pays
- Peer Navigation
- Transportation
- Medical Case Management

HOUSING OPPORTUNITIES

The Housing Opportunities Program, also known as HOP, assists HIV-positive persons with temporary assistance for their housing needs and to prevent homelessness.

Services include:

- Housing Case Management
- Budget Counseling
- Rental Payments
- Mortgage Payments
- Utility Payments

AIDS DRUG ASSISTANCE

The AIDS Drug Assistance Program (ADAP) helps HIV-positive persons stay healthy by assisting with the purchase of HIV prescription medications. ADAP provides HIV drug treatments for people who do not qualify for Medicaid, are awaiting Medicaid eligibility or cannot afford to purchase medications.
